|------------------------------|--------------------------|
| • Communication Skills | • Time Management |
| • Teamwork and Collaboration | • Adaptability |
| • Problem Solving | • Customer Service |
| • Critical Thinking | • Quick Learning Ability |
-

PROJECTS

- **Portfolio**

Developed a modern, responsive portfolio website using React, Vite, and Framer Motion, showcasing projects, technical skills, and professional achievements

- **Auction Web site (Group project)**

Developed a responsive online auction platform using Next.js, React, TypeScript, and Tailwind CSS, featuring real-time bid updates with TanStack React Query.

- **Wedding Invite Website**

Developed a responsive wedding invitation website with personalized guest invitations, interactive UI elements, custom animations, and social sharing features using HTML, CSS, and JavaScript.

- **Elysian Stay-Online Booking website (Currently Under Development)**

Developed a responsive full-stack booking application utilizing React and Vite on the frontend, supported by a custom Node.js/Express backend. Integrated Firebase for robust data management and Stripe API for processing secure online payments.

- **Online Learning Application (Currently Under Development)**

Built a scalable Flutter-based Learning Management System using Firebase, Clean Architecture, Provider state management, and secure RBAC authentication.

- **Internly mobile app(Dart)- Group project**

Developed using flutter to find internships by uploading the cv generated through application. and mock interviews, mock quizzes are also there for beginners.
