PERSONAL STATEMENT

Motivated Software Engineering undergraduate with strong problem-solving skills and the ability to perform well under pressure. Passionate about developing user-friendly and efficient digital solutions while continuously improving technical and professional skills. A quick learner passionate about exploring new technologies, collaborating effectively with teams, and delivering reliable and maintainable software solutions.

EDUCATION

- | | |
|--|---------------------|
| • University of Plymouth, UK
BSc (Hons) in Software Engineering — Undergraduate
◦ Currently pursuing degree, in progress. | Mar 2024 – Dec 2027 |
| • Completed with Advanced Certificate Programmer
NSBM Green University, Sri Lanka | 2024-2025 |
| • Information and Communication Technology Technician (NVQ LEVEL 4)
National Youth Service Council | 2023 |
| • Advancing Career Skills English Course (NVQ LEVEL 3)
National Youth Service Council | 2023 |

WORK EXPERIENCE

IT Trainee at Ceylon Electricity Board  July 2023 – January 2024

Successfully completed a 6-month IT training program at the Ceylon Electricity Board, focusing on providing technical support and managing enterprise IT systems.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python (Basic), Java, C, C#, PHP
- **Web Technologies:** HTML, CSS, Bootstrap, Flutter
- **Frameworks and Libraries:** React.js
- **Database Systems:** Microsoft SQL Server, MySQL, MongoDB, Firebase
- **Tools & Design:** UI/UX Design, Figma
- **Version Control:** Git, GitHub

PROJECTS

Utility Management System (Centralized Billing Platform): Group Project Sep 2025- January 2026

Tech Stack: PHP | SQL Server | CSS | XAMPP | GitHub 

- Developed a role-based web application for electricity and water billing management, supporting Admin, Manager, Cashier, and Customer dashboards.
- Implemented modules for customer management, meter readings, billing, payments, and complaints to ensure accurate and transparent operations.
- Integrated secure authentication and database connectivity using PHP and SQL Server, and deployed via XAMPP for reliable and stable system performance.

Banking Application System: Group Project

Oct 2025- January 2026

Tech Stack: Java | Spring Boot | MySQL | HTML | CSS | JS | React.js | MongoDB 

- Developed a secure banking system handling account management, transactions, and fund transfers with proper validation.

- Implemented role-based access and database integration to ensure secure, consistent, and efficient financial operations.

Personalized Health Tracking System (Desktop Application): Personal Project

February 2026

Tech Stack: Python | Tkinter (GUI) | SQLite3 | Pillow (PIL) | OOP

- Developed a secure, SQLite3-integrated health tracker featuring user authentication and a real-time BMI analytics engine for medical-standard health categorization.
- Engineered a modern, dark-themed GUI with automated data persistence to track and visualize historical user progress via a structured interface.

Academia – Modern Online Education & Learning Platform: Personal Project

May 2026

Tech Stack: React.js | CSS3 | HTML5 | Figma | Google Fonts

- Designed and developed a responsive educational web platform that showcases courses, student testimonials, and institutional information through a clean and intuitive interface.
- Implemented modern frontend development practices, including responsive layouts, reusable components, and interactive UI elements to enhance accessibility and user experience.

Hospital Management System: Personal Project

Nov 2025

Tech Stack: HTML5 | CSS3 | JavaScript | Figma

- Developed a fully responsive and interactive landing page for a healthcare facility.
- Highlighted hospital services, medical staff profiles, and patient testimonials, with an integrated appointment booking system to enhance patient engagement.

CLUBS & SOCIETIES

Council Member — FOSS Community

2026(current)

NSBM Green University

Committee Member — Mathematics and Statistics Circle

2025 -2026

NSBM Green University

Volunteer — Arduino Day, Open Squid... Supported the FOSS Community Event

2025

NSBM Green University

CERTIFICATIONS

- Python Programming: University of Moratuwa 2024
- Web Development: University of Moratuwa 2024
- Figma Course: DP Education IT Campus March 2026
- React Basics: Hacker Rank March 2026
- C# Bootcamp: Udemy June 2026
- Introduction to Artificial Intelligence: Simplilearn July 2025

OTHER INFORMATION

- **Languages:** English , Sinhala (Native)
- **Soft Skills:** Logical Thinking, Problem Solving, Leadership, Critical Thinking, Time Management, Effective Communication, Project Management, Teamwork & Collaboration, Adaptability & Quick Learning
